

NOTICE OF STUDY COMPLETION

CITY OF SARNIA

SCHEDULE 'C' CLASS ENVIRONMENTAL ASSESSMENT FOR SHORELINE PROTECTION OF CENTENNIAL PARK ALONG THE SARNIA BAY HARBOUR FRONT

The City of Sarnia has completed a Municipal Class Environmental Assessment (EA) to investigate options for shoreline protection along the southern waterfront of Sarnia Bay in Centennial Park (the Park). The EA is also evaluated the removal of the existing boat ramps and installation of new ramps closer to the existing marina. The purpose of the study was to develop a recommended plan to provide shoreline protection that is necessary for implementation of a clean soil cap at the Park to address historical contaminants in fill material that was used during Park construction. The study followed the *Municipal Class Environmental Assessment, October 2000, as amended in 2007, 2011 and 2014 – Schedule 'C'*.

An Environmental Study Report has been prepared documenting the study process, and the preferred solution for the intersections and roadway corridor. The report is available for public review for a 30-day period, from February 12, 2016 to March 11, 2016 on the City of Sarnia's website www.city.sarnia.on.ca and at:

City Hall
Third Floor, Engineering Department
255 Christina Street North,
Sarnia, ON
N7T 5S7

If concerns regarding the Project cannot be resolved in discussion with the City of Sarnia, a person or party may request that the Minister of the Environment and Climate Change make an order for the Project to comply with Part II of the *Environmental Assessment Act* (referred to as a Part II Order), which requires an Individual Environmental Assessment. Requests must be received by the Minister by March 11, 2016 with a copy sent to the Director of the Environmental Approvals Branch and the City's Project Manager. If no new or outstanding concerns are brought forward during the review period, the City may proceed with detailed design and construction of the Project.
